Coding & Solution

Date	10 Jul 2026
Team ID	xxxxxx
Project Name	Smart Lender – AI-Powered Loan Approval Prediction System
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	https://github.com/anushaobulapuram/smart_lender_smart_bridge.git
Programming Language(s)	Python, HTML, CSS, JavaScript, SQL
Framework(s) Used	Flask, Scikit-learn, Bootstrap

Key Features Implemented	• AI-Based Loan Eligibility Prediction • Applicant Profile Management • Prediction History • Eligibility Score & Risk Analysis • PDF Report Generation • Responsive Web Interface
Pending / Incomplete Features	• OCR-Based Application Form Upload • Email/SMS Notification • Cloud Database Integration • Multi-User Authentication
Setup / Run Instructions	1. Clone the GitHub repository. 2. Install the required packages using requirements.txt. 3. Run the application using python app.py. 4. Open http://127.0.0.1:5000 in a web browser. 5. Enter applicant details and click **Predict Loan**.

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	**Yes**
2	Meaningful variable and function names are used	**Yes**
3	Code includes comments / documentation where necessary	**Yes**
4	Error handling is implemented for critical operations	**Yes**
5	The application runs without critical errors	**Yes**
6	Code is committed to a version control repository	**Yes**

Additional Notes / Comments:

The project is well-structured, user-friendly, and follows good coding practices. All major functionalities were implemented successfully, and the application was tested to ensure accurate loan eligibility prediction and smooth performance.
