

Data Flow Diagram

Date	10 Jul 2026
Team ID	*****
Project Name	Smart Lender – AI-Powered Loan Approval Prediction System
Maximum Marks	2 Marks

Data Flow Diagram

The diagram below shows how data moves through the Smart Lender system — between external entities, processes, and data stores — from applicant submission through to the final credit decision.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A user or system outside the application that sends or receives data (e.g., Applicant, Bank Credit Officer).
Rectangle with numbered header	Process	A process that analyzes applicant data and generates loan eligibility predictions (e.g., Validate Applicant Data, Predict Loan Eligibility).
Rectangle (solid fill, no number)	Data Store	A storage location that maintains applicant information, prediction history, and trained ML models.
Labeled arrow	Data Flow	Represents the movement of data between entities, processes, and data stores within the Smart Lender AI system.

Smart Lender Data Flow Diagram

The diagram below illustrates how applicant data flows from submission, through validation and the XGBoost-based prediction engine, to the final decision report delivered to the credit officer.
