

Code-Layout, Readability and Reusability

Date	10 Jul 2026
Team ID	XXXXXX
Project Name	Smart Lender – AI-Powered Loan Approval Prediction System
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Proper indentation maintained
2	Proper File Structure	Files and folders are logically organized	Yes	Organized project structure
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Clear and descriptive variable names
4	Function / Method Names	Functions are descriptively named	Yes	Easy to understand function names
5	Code Comments	Inline and block comments explain logic	Partial	Comments added for important sections
6	Modular Design	Code is split into reusable functions/modules	Yes	Modular Flask application structure
7	No Redundant Code	Duplicate or unused code is removed	Yes	Code optimized and cleaned
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Basic exception handling implemented

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Loan Prediction Module	Python, Scikit-learn	Predict Loan, Applicant Profile	High
2	Data Preprocessing Module	Python, Pandas	Model Training, Prediction	High
3	PDF Report Module	Flask, ReportLab	Prediction Result, Applicant Profile	Medium
4	History Management Module	JavaScript, LocalStorage, Flask	History Page, Applicant Profile	High
5	User Interface Components	HTML, CSS, JavaScript	Home, Predict Loan, History, About	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-structured and organized code.
Readability	5	Easy to understand and maintain.
Reusability	5	Reusable modules and functions implemented.
Documentation / Comments	4	Adequate comments for important logic.
Overall Score	5	Good code quality with modular design and maintainability.
